GREATER NEWPORT NEWS DAY CONFERENCE TODAY

Mayor, Mr. Post, Col. Jones and
Messrs. Sprague and Upshur Will
Decide Question.

Mayor Buxton, Colonel Maryus Jones, president of the board of aldermen; Mr. W. S. Upshur, president of the Chamber of Commerce; Mr. J. R. Sprague, president of the Merchants' Association, and Mr. W. A. Post, general manager of the Newport News Shipbuilding and Dry Dock Company, will hold a conference in the Mayor's office this morning for the purpose of discussing the idea of celebrating a Greater Newport News Day at the Exposition.

All of the gentlemen above named have been approached by Mr. Guy O. Mason, representing the Exposition Company, and if they think that it is practicable to observe a "Day" for this city at the Tercentennial they will start to work on the project with enthusiasm and without delay.

According to the plan which has been outlined, the city's expense in connection with a celebration would be comparatively small, as the Exposition would provide a program and furnish bands and other attractions. If it is decided to have a Newport News Day, the date will be about November 15.

WILL NOT GROW TOBACCO IN THE BURLY DISTRICT

National Growers' Association Decides
to Take This Step Because of
Over Production.

(By Associated Press.)
SHELBYVILLE, Ky., Oct. 31.—The National Tobacco Growers' association late today unanimously adopted resolutions declaring against the raising of a crop of burly tobacco next year thereby setting at rest all doubt as to the attitude of the National Association on this matter. It was pointed out that while there is an over supply of tobacco in the burly district, there is a scarcity of the weed in the dark districts and non-production would do no good there. The same is true of the vast other parts of the country to such an extent that unanimity on the part of the members of the National Tobacco Growers' association could not be secured on the

non-production plan and the project would be a failure as a national movement.

As the situation now stands without prospect of change, the only non-producing district will be the burly district, comprising more than 30 counties in Kentucky, a few in Indiana and one or two in Ohio.

USING PEOPLE'S MONEY TO AID STOCK GAMBLERS

Representative Gillespie Denounces
Action of Administration—Reduction
of Tariff Would Check Panic

WASHINGTON, D. C., Oct. 31.—When the resolution of inquiry into the action of the Treasury Department in the crisis in money matters is introduced in the House by Representative Sims of Tennessee, one of its most ardent advocates, and supporters will be Representative Oscar W. Gillespie of Texas, joint author of the Tillman-Gillespie resolutions that resulted in a Federal investigation of the ownership of coal mines by railroad companies. Mr. Gillespie, who has always been opposed to the encouragement by the government of Wall Street ventures, said today:

"What is all this but using the people's money in the stock market of New York. It appears to be to be a case of the government going to the aid of the stock gamblers of New York."

"The remedy for all this panicky feeling in Wall street and throughout the country without straining for anything, strong or new or novel is to reduce the tariff to a revenue basis strictly, and force the government to refrain hereafter from going into Wall street with its funds. That the tariff change is needed is certain. If it isn't needed, why doesn't the Dingley tariff, hailed as the maker of prosperity, save the day instead of having your Uncle Sam do it?"

NEITHER TEAM SCORED

Hampton and Local High School's
Fought to Draw on Gridiron.

YOUNG LADIES AMONG "ROOTERS"

Visitors Had Advantage of Superior
Weight and Succeeded in Keeping
the Ball in Newport News Territory
Most of the Time.

Several hundred enthusiastic spectators, including a number of the young lady pupils of the rival institutions, saw the football eleven of the Newport News High school battle the heavier eleven of the Hampton High school to a no-score draw on the Casino gridiron yesterday afternoon. Both elevens played a hard and just game throughout and at times the interest and enthusiasm of the spectators became so intense that they rushed out on the field to get a closer view of the play and interfered with the progress of the contest. A feature of the game was the "rooting" of the young lady pupils who carried the colors and pennants of their respective schools.

The Hampton eleven seemed to have slightly the better of the game and succeeded in keeping the ball well within the local school's territory most of the time. On three occasions the visitors were within striking distance of the goal of the local eleven, but on two of the occasions their attempts to kick goals from the field failed and on the third they were held for downs and lost the ball.

Played Old Fashioned Game.
During most of the contest both teams stuck to the old fashioned game of line bucking and end running, but the local team pulled off one pretty forward pass and successfully engineered two on-side kicks. One forward pass failed. The visitors also executed a forward pass, but they did not attempt any on-side kicks, being content with straight punts.

The visitors clearly outclassed the locals in running up punts. Brittingham and Hickman frequently making long runs after receiving a punt. On one or two occasions, however, Murray and Cooke ran up punts for good gains.

Brittingham, Norris, Parramore and Hickman were easily the stars for the visitors, while Williamson, Morgan, Cooke, Hudson, Hamilton and Murray did the best work for the locals.

The Lineups.
How the elevens lined up:

Hudson left halfback.

MORNEY STEAMERS SUSPEND OPERATIONS

Last Trip Made by the General Putnam Last Night—Capt. McHorney Ill.

The McHorney line of steamers, plying between Peir A and Pine Beach, suspended operations last night, when the steamer General Putnam made her last trip to this side of Hampton Roads. The line, which cut the fare between this city and the Exposition in half, has ceased to exist.

Recently the steamer General Lee blew out a cylinder head and since that time she has been laid up for repairs. A few days later, Captain B. F. McHorney, skipper of the General Lee, and general manager of the line, was stricken with typhoid pneumonia. Captain McHorney is confined to his bed in his home in Norfolk and is unable to attend to business affairs.

A few days ago the General Putnam was sold by her owners to a company at Ithaca, N. Y., and arrangements were made to have the vessel turned over to her new owners as soon as possible. Then it was decided to abandon the McHorney line entirely, as the time for the closing of the Exposition will be at hand before the General Lee is ready for service again.

It is understood that the General Putnam will be laid up at the local shipyard for repairs.

HALLOWEEN CELEBRATED IN UPROARIOUS STYLE

Streets Thronged With Fantastically
Garbed Noise-makers Until
Late Hour.

Ever darkness had fairly settled over the city last night, those who had forgotten the fact were given ample evidence that Halloween was at hand. The celebration started early and lasted until late. Men, women and children paraded the streets, attired in all sorts of fantastic garbs, and using everything from a cow bell to a trumpet in relieving emotions pent up since last year.

Curfew was not rung until 8:45

o'clock and for all the good it did it might as well not have sounded at all. The policemen had been instructed not to interfere with anyone engaged in harmless pranks, so the children had full swing until they saw fit to call off the fun of their own accord.

It was midnight before the streets were cleared of the celebrators. Of course it was impossible to get accurate reports of the number of gates, chairs, etc., missing, but today probably will bring forth the usual developments along this line.

TO PROBE FAULTY REPAIRS

Navy Department Will Place Responsibility for Poor Material in Ships
WASHINGTON, D. C., Oct. 31.—Responsibility for recent faulty repairs to vessels of the fleet will be placed where it belongs if the plans of the Assistant Secretary of the Navy do not go wrong. The battleship New Jersey was helpless off Cape Charles for 48 hours in August as a result of an accident to the steering engine cable. It was found that this cable, instead of being made of steel of a high strength, was of an unserviceable composition which when examined by naval officers, excited wonder that it had ever been passed by the inspectors.

The administration of the navy yards has just been placed under Mr. Newberry, the assistant secretary, and he has directed that a report be made on the accident of the New Jersey, especially regarding the persons responsible for the installation of the defective cable.

WILL EMPLOY A GOOD LAWYER

Young Man Proposes to Get Work

as Long as Necessary—Lost Watch
on Train.

After a very troublesome and tiresome trip, Robert Bird and his son, father and brother of Mrs. Nannie B. Baker, arrived in the city yesterday morning from their home near Wesar, N. C. At noon the couple called upon Chief of Police Reynolds and learned the particulars of the case of the unfortunate young woman who is charged with murdering her newly born infant son.

Mr. Bird seemed to be almost prostrated with grief over the affair. He said that his wife who is old and feeble, was ill in bed as the result of the news which brought him to this city. He told the chief that he proposes to employ the best lawyer to be found in Newport News and would do everything possible to save his daughter.

Mr. Bird and his son were with Baker during the afternoon and it is understood that the husband as well as the father and brother will stand by the young woman.

Mrs. Baker is still in ignorance of the fearful charge which is hanging over her head. She is steadily recovering and it is only a matter of days before she will be removed to the jail. At this time it seems hardly probable that she will secure freedom on bail.

Mr. Bird states that he will be obliged to return home at the end of two weeks, but that his son will secure a position here and remain in the city as long as there is anything that may be done for the girl.

On his way up from North Carolina on the train, young Baker had his pocket picked, losing a new gold watch and chain.

Postmaster W. T. Hopkins left yesterday afternoon for Richmond to attend a meeting to be held for the purpose of organizing an association of Virginia postmasters.

My attention was finally drawn to Doan's Kidney Pills and seeing testimonials of others who had used them for the same complaints with satisfactory results, I procured a box at A. E. G. STOP WOMAN AND CONSIDER

First, that almost every operation in our hospitals, performed upon women, becomes necessary because of neglect of such symptoms as Backache, Irregularities, Displacements, Pain in the Side, Dragging Sensations, Dizziness and Sleeplessness.

Second, that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, has cured more cases of female ill than any other one medicine known. It regulates, strengthens and restores women's health and is invaluable in preparing women for child-birth and during the period of Change of Life.

Third, the great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time being published by special permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Lydia E. Pinkham's Vegetable Compound
